## I. Introduction / General Information

The City of Lake Worth, Florida is requesting proposals for: PROPERTY COVERAGE (including INLAND MARINE and BOILER & MACHINERY); CRIME COVERAGE; PUBLIC OFFICIAL LIABILITY / EMPLOYMENT PRACTICE LIABILITY; AUTOMOBILE LIABILITY; GENERAL LIABILITY; WORKERS' COMPENSATION COVERAGE; and POLLUTION LEGAL LIABILITY. Insurance is to be effective October 1, 2016.

Proposers may offer quotes on all coverage or separate lines of coverage. It is requested that proposers show a premium breakdown for each line of coverage proposed. Although the City has requested several types of coverage, some types may not be purchased. Current coverage is placed by Public Risk Insurance Agency, through Preferred Governmental Insurance Trust, with Public Official / Employment Practice Liability being insured by ACE / Chubb and utility property coverage being insured by Ace American / Starr Tech. The City is self-insured for all major liability coverage lines and workers' compensation, and purchases excess coverage over a self-insured retention in these areas. All retention limits shown in the specifications are in conjunction with the current program. The City contracts with York/FARA for claims administration services. The City's pollution legal liability policy is written with AIG Specialty and has a \$50,000 deductible.

The City also maintains storage tank liability, flood, and pension fiduciary liability policies, which are not being quoted at this time.

**NOTE: At this time the City wishes to consider optional quotes for a first-dollar program for all lines. Small deductible options will also be considered.**

All proposers and carriers must be licensed to conduct business in the State of Florida. Carriers should be of acceptable financial strength as rated by AM BEST. Self insurance funds are acceptable, but proposers must attach the fund's latest financial statement to their proposal.

Proposers should indicate carriers' most favorable terms of premium payment for all policies quoted.

The current property coverage, including boiler and machinery and data processing equipment, is written with the Preferred Governmental Insurance Trust program. Non-utility blanket building and personal property values are \$41,810,926, with additional values for inland marine. Blanket utility building and personal property values are \$117,093,374, which are insured through Ace American / Starr Tech. Boiler and machinery coverage is currently valued at \$41,810,926 for non-utility locations and \$117,093,374 for utility locations.

NAMED INSURED - The CITY OF LAKE WORTH shall be the named insured of the accepted policies. However, the named insured should be endorsed to cover elected officials, members of councils, boards, commissions, authorities or agencies, etc., and employees and volunteers of the City of Lake Worth.

## II. Property Coverage

INSURED PERILS – Proposers are directed to base quotes on the "special form" (all-risk), including theft and sinkhole perils. Currently, windstorm coverage is included in both the PGIT and Starr Tech policies and should be included in the proposed property policies. If this cannot be done, please provide a windstorm quote through other means. Flood coverage is currently written on several buildings through the National Flood Insurance Program, but is not being quoted at this time.
